*Right feed! Right results!*

Advanced Rural fully supports the rural outlets that sell our bagged branded products from their stores. This partnership has been thriving over the years and continues to develop. In support of these stores, Advanced Rural does not do retail sales.

This allows Advanced Rural to focus on being a wholesaler that provides the highest possible level of service to all customers.

Any customer is able to purchase bulk product direct from the feedmill:

- 1 tonne bulk bags that can be collected from the mill.
- Bulk delivery by our feed delivery truck, direct to farm (minimum limits apply).

For further enquiry, please contact Advanced Rural and we can discuss your requirements to establish how we can best assist you.
